EDUCATION

Master of Science, Computer Science , Drexel University, Philadelphia	Sep 2023- June 2025
Artificial Intelligence, Computer Vision, Data Structures and Algorithms, Developing user Interface Computer Networks, Software Project Management GPA: 3.79/4.0	
Bachelor of Engineering, Information Science , DSCE, Bangalore, India	Aug 2019 – June 2023
CGPA: 8.67/10	

SKILLS

Programming Languages: Python, HTML, CSS, Javascript (Advanced); Java (Intermediate)
Libraries/Frameworks: React.js (Advanced), Django, Numpy, Pandas, Flask, Node.js (Intermediate)
Tools / Platforms: Git and Github (Advanced); MATLAB (Intermediate), Figma (Intermediate)
Databases: MySQL (Advanced), MongoDB (Intermediate)

WORK EXPERIENCE

Business Web Solutions Web Development Intern	March 2023 - May 2023
<ul style="list-style-type: none">Enhanced User Engagement: Boosted user engagement by 30% across 5+ projects using advanced front-end technologies.Server-Side Efficiency: Increased server-side efficiency by 25% by optimizing back-end code and improving resource management, reducing load times and enhancing user experience.Component Development: Led the development of over 10 React JS components, boosting site traffic by 20%.Process Improvement: Streamlined Git/GitHub processes for three development teams, reducing merge conflicts by 40% and enhancing code integration efficiency.	
M-Kube Front-End Web Development Intern Sydney, Australia (Remote)	Mar 2022 - June 2022
<ul style="list-style-type: none">Front-End Revamp: Led the redesign of the website's front-end, increasing user engagement by 35% through improved responsive design and feature integration.Project Delivery Efficiency: Achieved a 40% increase in project delivery efficiency by driving key insights and feedback in project meetings, ensuring compatibility across devices and seamless back-end integration.	

PROJECT

Zest(Real-Time Chat Application)

- Developed a real-time chat application using React and Socket.IO, ensuring instant messaging and user interaction. [Link](#)
- Addressed challenges in real-time responsiveness and scalability through efficient websocket and state management techniques.

Implementations of Vedic Mathematics Sutra(Android Application)

- Created an educational application for Vedic mathematics, integrating interactive tools and user-friendly design. ([fin_irjmets1686833488.pdf](#))
- Overcame challenges in user engagement and content delivery, enhancing the learning experience.

Language Detection

- Created an app for detecting and translating languages, enhancing real-time processing and accuracy.

CERTIFICATION

- HTML, CSS, and Javascript for Web Developers on Coursera. [Link](#)
Completed an advanced course culminating in a capstone project that boosted site load speed by 40% and increased user retention by 20%.
- Java Programming Masterclass updated to Java 17 on Udemy. [Link](#)
